Every community should have a small in-door swimming pool maybe not for recreation but to teach swimming to children/adults all year around. It's a very important specially for children to learn to swim at early age of 3 to 7 years. This give children a lot of confidence and also one day maybe safe their live or somebody else. Once a child reach 10 years or older is very difficult to teach swimming.

"Enjoy Tours" have a monopoly with the trips to other countries. They charge to much for children specially when our children staying with us in the same room.

MWR should have trips to cities and places in Europe (Italy, London, Spain, Paris).

I absolutely detest going to Burger King on post. My child loves to eat there however the wait times are horrible - 25 minutes for a fast food meal is not uncommon and the personnel are very poorly trained. I recently had an experience where the woman asked what we wanted, told me the price and did not say anything else to me during a 25 minute wait. It was an incredible experience.

On the other hand I have had phenomenal experiences with MWR shuttle services to local airports - the staff of the Graf facility were incredible, prompt, friendly and helpful.

The Kronplatz ski trip should be cancelled and replaced by Ischgl, zurs, lech, or St. Anton. The soldiers do have the money. The Kronplatz is really weak when compared to all the other sites available.

A map showing all the local ski areas should be made for those soldiers and their families that just want to do snow play.

I have really enjoyed MWR ski trips, and feel the guides are friendly and knowledgeable.

Please consider building an indoor pool and spa on Rose Barracks in Vilseck. This would be an asset to the school as well as students could learn to swim and enjoy the pool as part of the PE program.

Should there be a "not available" category on the questions where asking how often an activity or service is used? If it is not available I must check that I "never" use it, but that does not allow for input that I would use it if it were available. This produces false results. We have no on-post gold course. Our bowling center has no food service and beverages are very limited. I did not participate in miniature golf because there is no facility on or off post. And so on.

I think with all of the build up going on between Vilseck and Graf there should be more family style dining,ex. TGIF. Also with all of the deployments that are going on I strongly believe there should be more physical activities for the children without having to go off post, for instance a hockey court and swimming pool I know of many families who are spending between 50-100 Euro per year to go to off post swimming pools. As for sports we need more variety for smaller children like t-ball, pee-wee football, and roller hockey. I am a homeschooling mother of four and I am also a family child care provider these are just a few of the things parents have talked with me about. And what about the spouses when our husbands are gone why can't we have something to keep our spirits up like child care in the gyms or maybe scrapbooking nights a couple times a month with childcare offered. The army is all talk about health and fitness but yet it is not setup to support the entire families. Thank you for your time and from someone who is going to be at this installation for four more years I hope you really considered what I have said.

The Vilseck Library has a sufficient amount of Public computers available with the addition of the Sun System. It is very rare that I have to wait on a computer or are asked to log off.
